

**Release of Billing and Assignments of Benefits Policy**

Agreeing to "Release of Billing" means that you allow your doctor to disclose medical information so that your doctor can bill and receive payment for medical services delivered.

Agreeing to "Assignment of Benefits" means that you, the patient, allow the transfer of claim benefits to your doctor. Claims will be submitted by the doctor to the insurance company and payments from the insurance company will go directly to your doctor.

By signing below, I acknowledge that I have read and understand the policies listed above.
